## GRANTEE INFORMATION

## Project Overview

Pasadena Unified School District is converting an elementary school and a high school from traditional programs to magnet programs, and significantly revising a magnet middle school by adding a new theme option. The Magnet Schools Assistance Program (MSAP)-funded project is implementing two K-12 magnet pathways to increase academic rigor and remove barriers to learning: a K-8 arts and a K-8 science, technology, engineering, and mathematics with Spanish dual immersion pathway, both of which lead to an early college and career high school. In addition, the schools are partnering with the local community college to provide enhanced learning opportunities to students. The MSAP schools are implementing rigorous reading and writing curricula and instruction; positive behavior interventions that teach restorative practices; innovative magnet themes to increase academic achievement; and partnerships with parents that lead to opportunities for continuous improvement.

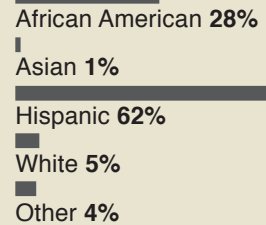

### Grades K-5

## Altadena Elementary School

**Magnet Theme**  
Visual and performing arts

### Race/ethnicity

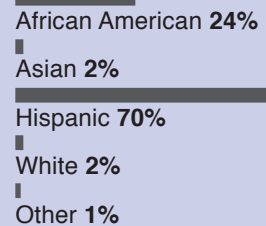

### Grades 9-12

## John Muir High School

**Magnet Theme**  
Early college and career prep

### Race/ethnicity

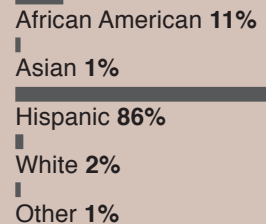

### Grades 6-8
